Beef Neck Tendons

ARFMAN
★ PET TREATS ★

BEEF NECK TENDONS

Handcraft

ARFMAN Beef Neck Tendons: Supplementary food for adult dogs. Mono-protein dog snack. No artificial preservatives, flavourings or colours. Naturally grain and gluten-free. Short to medium-lasting chewing fun.

ARFMAN Beef Neck Tendons dog treats are an ideal activity snack for small to medium-sized dogs. These chews are hard and need to be chewed for longer. Beef tendons do not contain bones or cartilage and they are a tasty snack between meals for larger dogs. These delicious chews contain collagen protein which can help promote a shiny coat.

ARFMAN is a range of delicious supplementary dog treats. These dried chews are made without artificial additives, preservatives, colours and aromas. These tasty rewards are naturally grain and gluten-free. Choose from different sources of animal protein: Beef, pork, poultry, game, lamb and fish and find the perfect treat for your dog, small or large.

Please note: dog bones, treats and snacks are available in a range of types and sizes so make sure to choose one that is the appropriate size and shape for your pet. For their safety, please supervise your pets when they are enjoying a treat or bone. As this is a natural product, the texture and colour may vary from batch to batch.

Ingredients: Dried beef neck tendons

Sea Sprats

ARFMAN
★ PET TREATS ★

**SEA
SPRATS**

Handcraft

Description: Our very own Dried Sprats - great for sprinkling on your dogs dinners, or using as a tasty, natural, pure fish training treat or reward.

Benefits: 100% natural, grain free, hypoallergenic dog chews. Gently air-dried to retain their natural goodness and intrinsic values. The fatty acids found in fish are perfect for providing moisture to skin & coats, helping to reduce itchy skin and boost overall coat health, with less shedding and more shine! Fish is low in saturated fat, but high protein, great for controlling weight and perfect for elderly dogs. Rich in Omega 3 & 6, which aren't naturally found in canine digestive systems – adding these oils to your pooches diet can have amazing benefits, including: aiding in brain development, helping focus, memory and behaviour and even boosting your dog's immune system!

Fish is full of Omega oils which have anti-inflammatory benefits, great for joints & mobility. The antioxidants also

reduce inflammation in joints and provide a much needed stamina boost for older dogs. Not only will pooches love the taste of these Dried Sprats, they are also highly digestible, reducing the work needed by your dog's digestive system compared to many protein-rich meats.

Ingredients: 100% Sprats (small fish that belong to the herring family)

Analytical Constituents: Moisture 8.1%, Fats & oils 21.3%, Protein 52.2%, Ash 17.3%

Energy: 405 kCal/100 g

Please note – as this is a natural product, the colour and size may vary slightly.

NETTO: 250 g.
